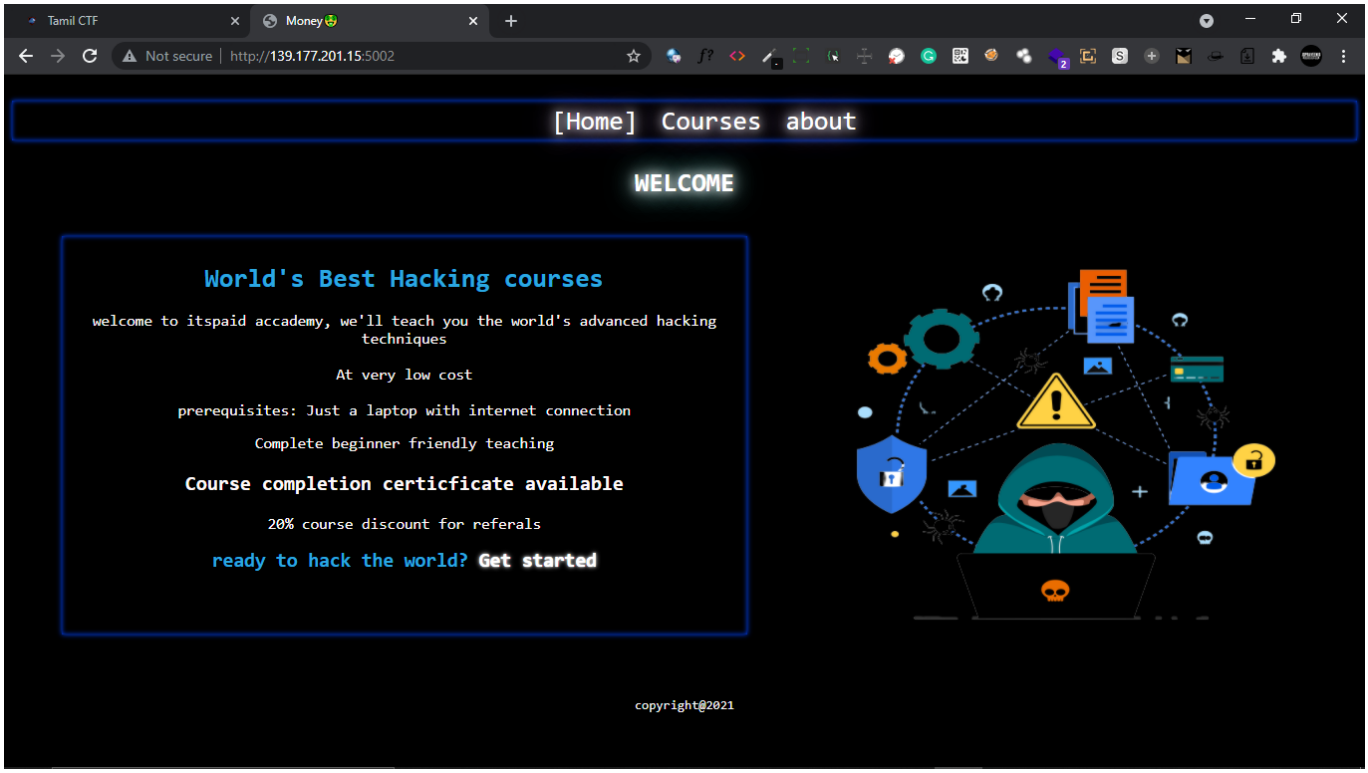
Its Paid [WEB]

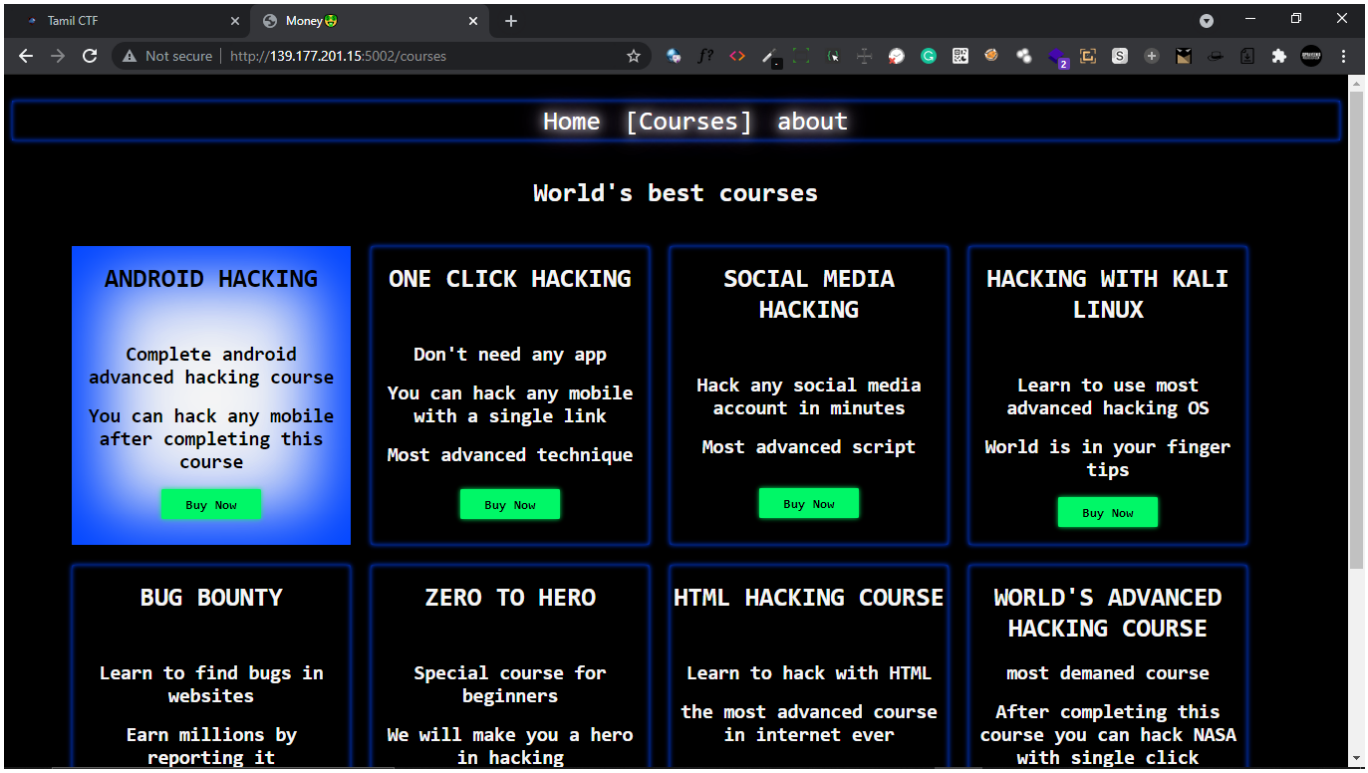
description:

I heard that admin leaked something somewhere o.O

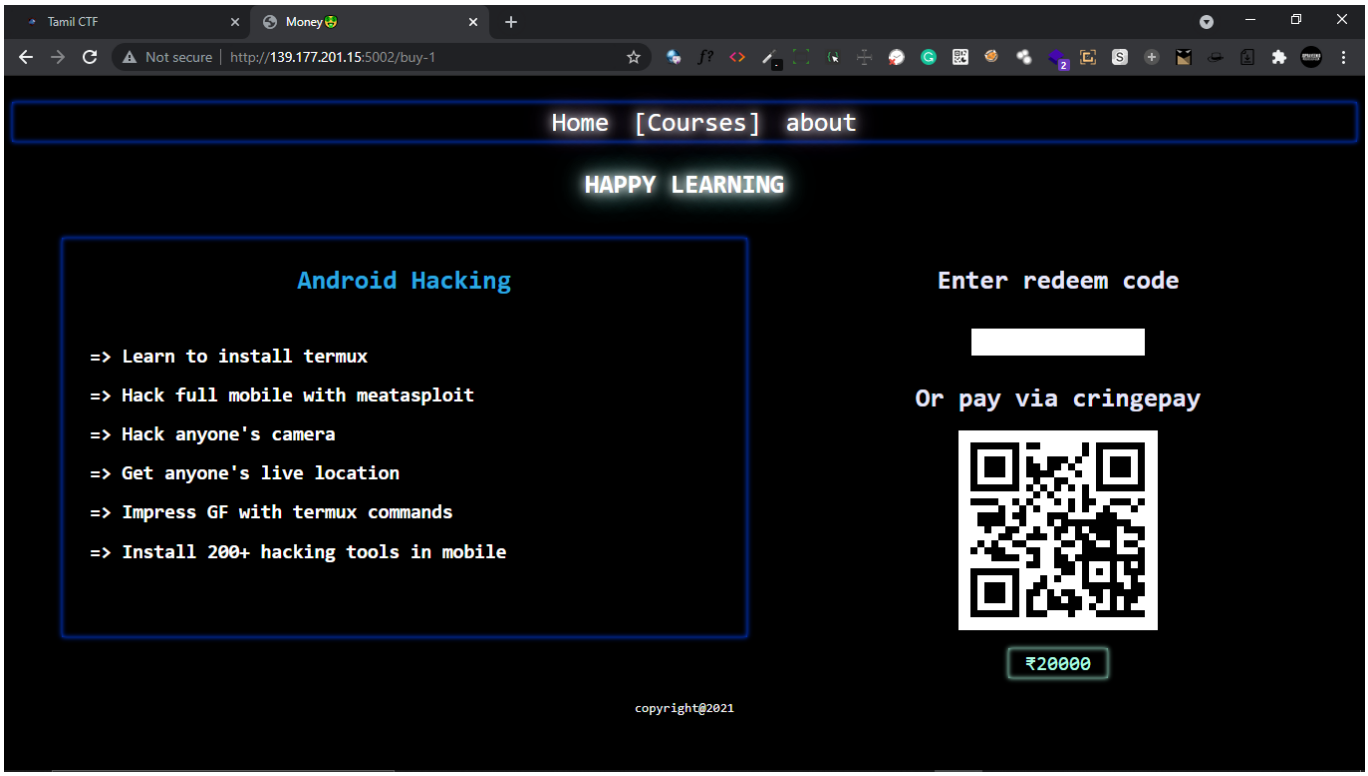
Writeup



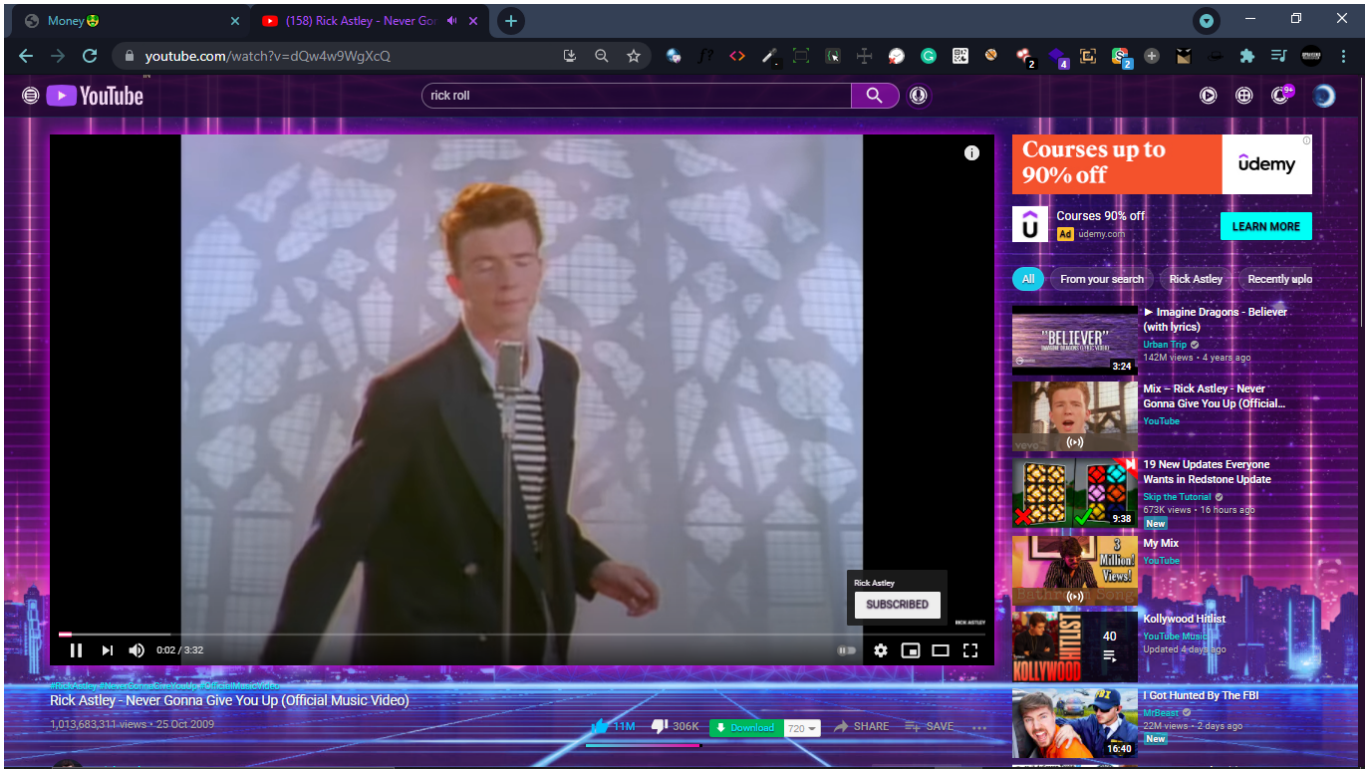
- Here is the starting page, looks like it's a course website o.O
- Let's click **Get started**



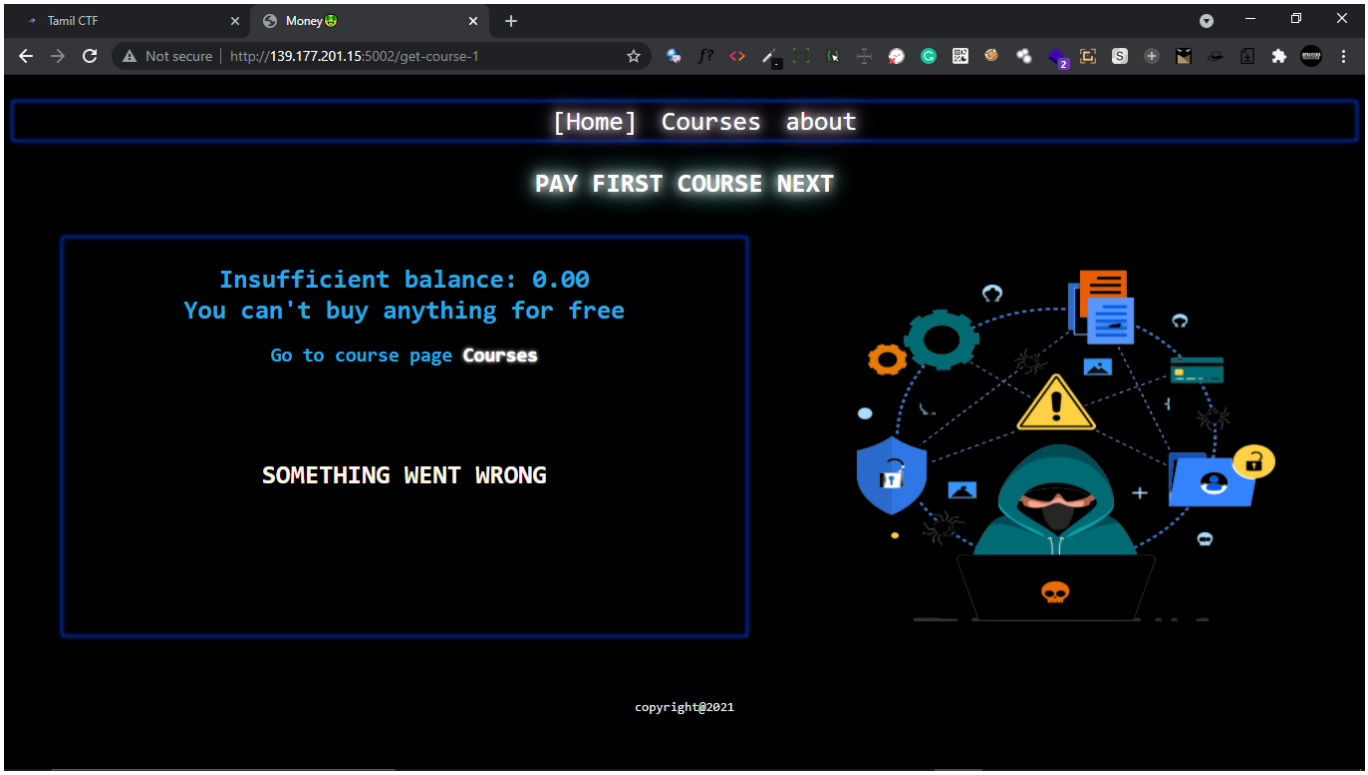
There're many courses available, let's click buy now on **Android hacking**



Here is the course description and payment qr code, let's scan the qr code

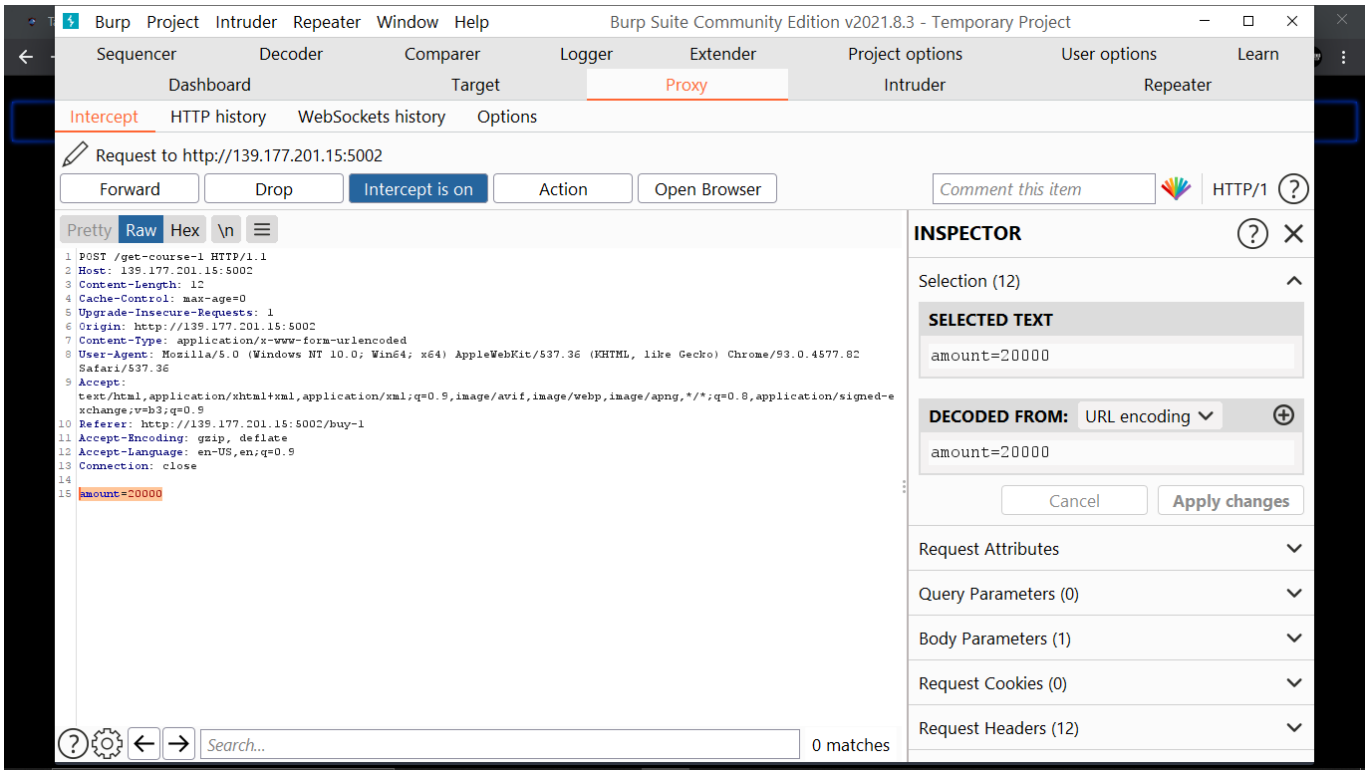


- So sad, I got rick rolled :(
- Let's click that button below qrcode ₹20000



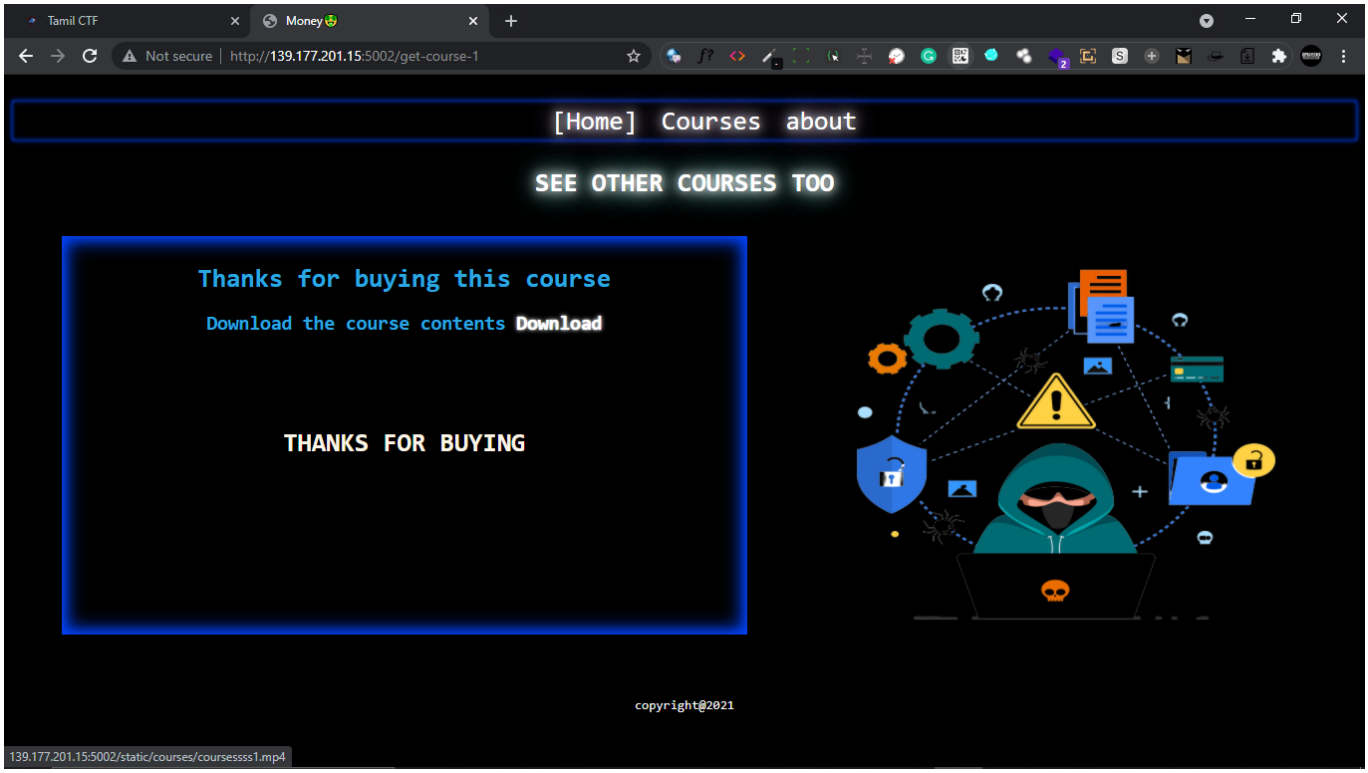
- Sad payment was unsuccessful :(

- Ok let's intercept this request with burp



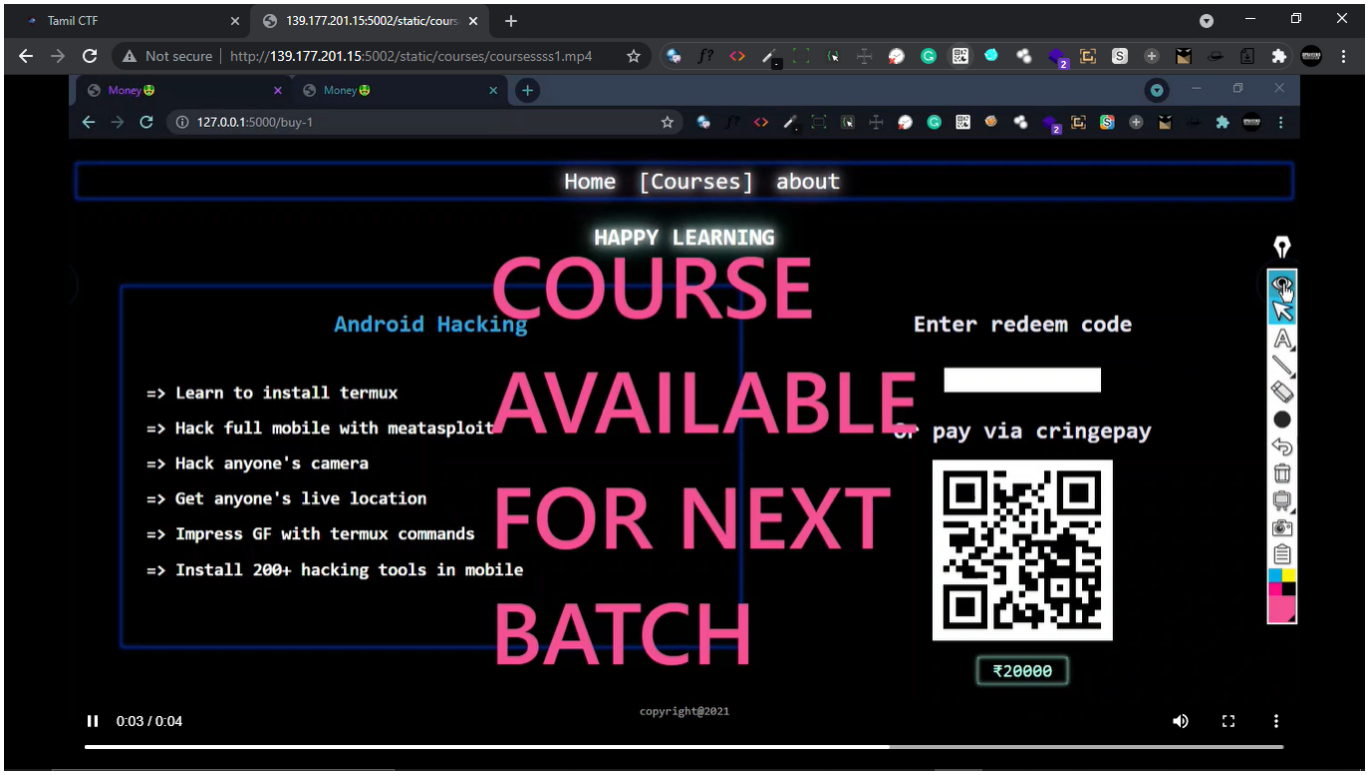
- Here you can see a parameter passing through the request and it has the courses' price value :)

- Let's change it to zero and forward the request
  amount=0



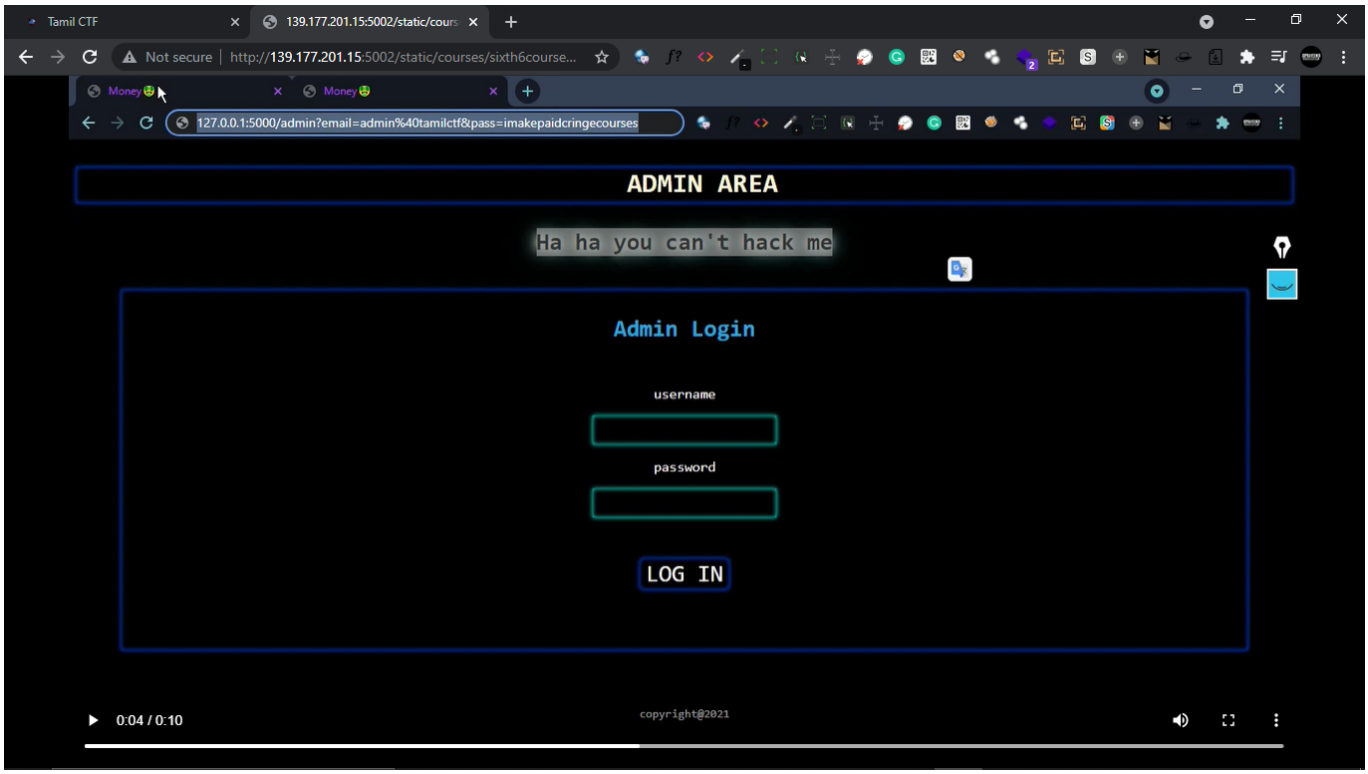
- Cool we bought the course with parameter tampering :)
- Now let's download the course by clicking Download button

course video



- Scammer he said course available for next batch :(
- let's download all 8 videos of 8 courses

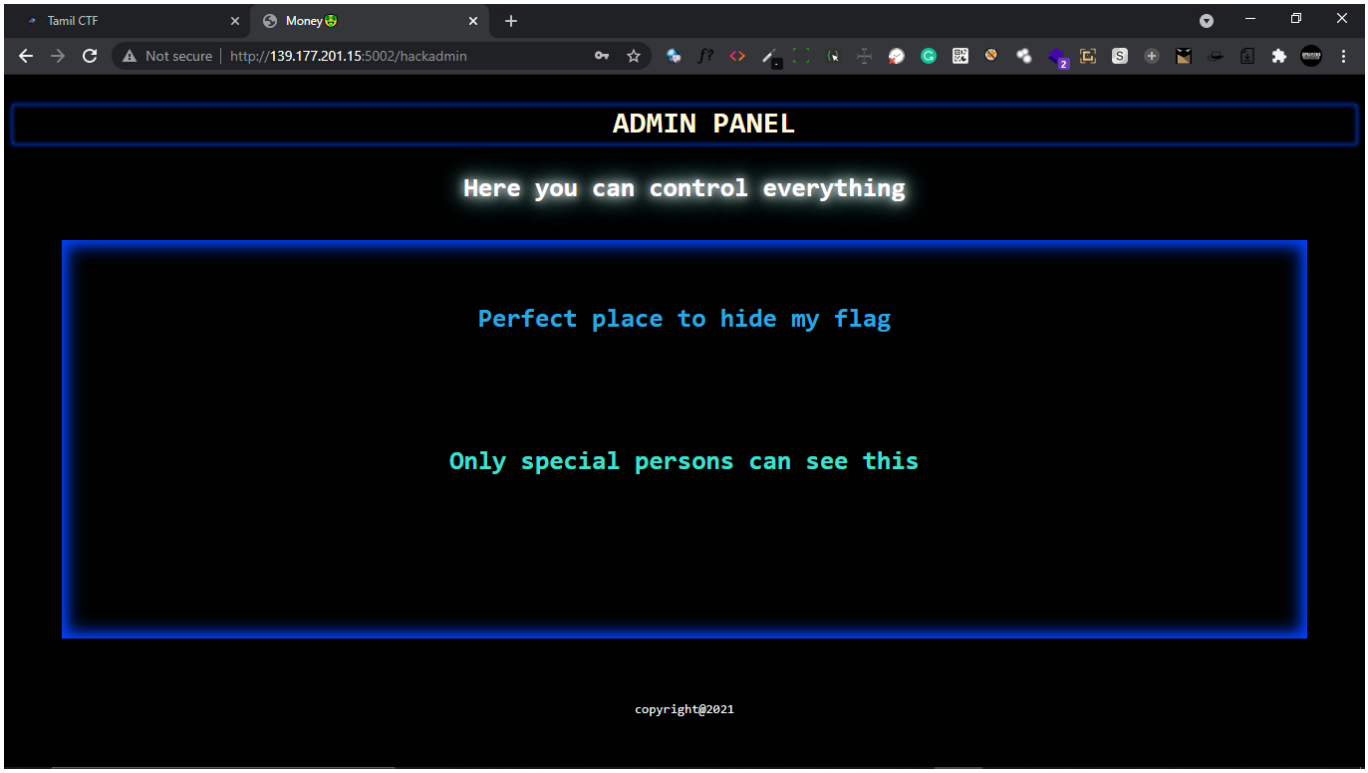
creds



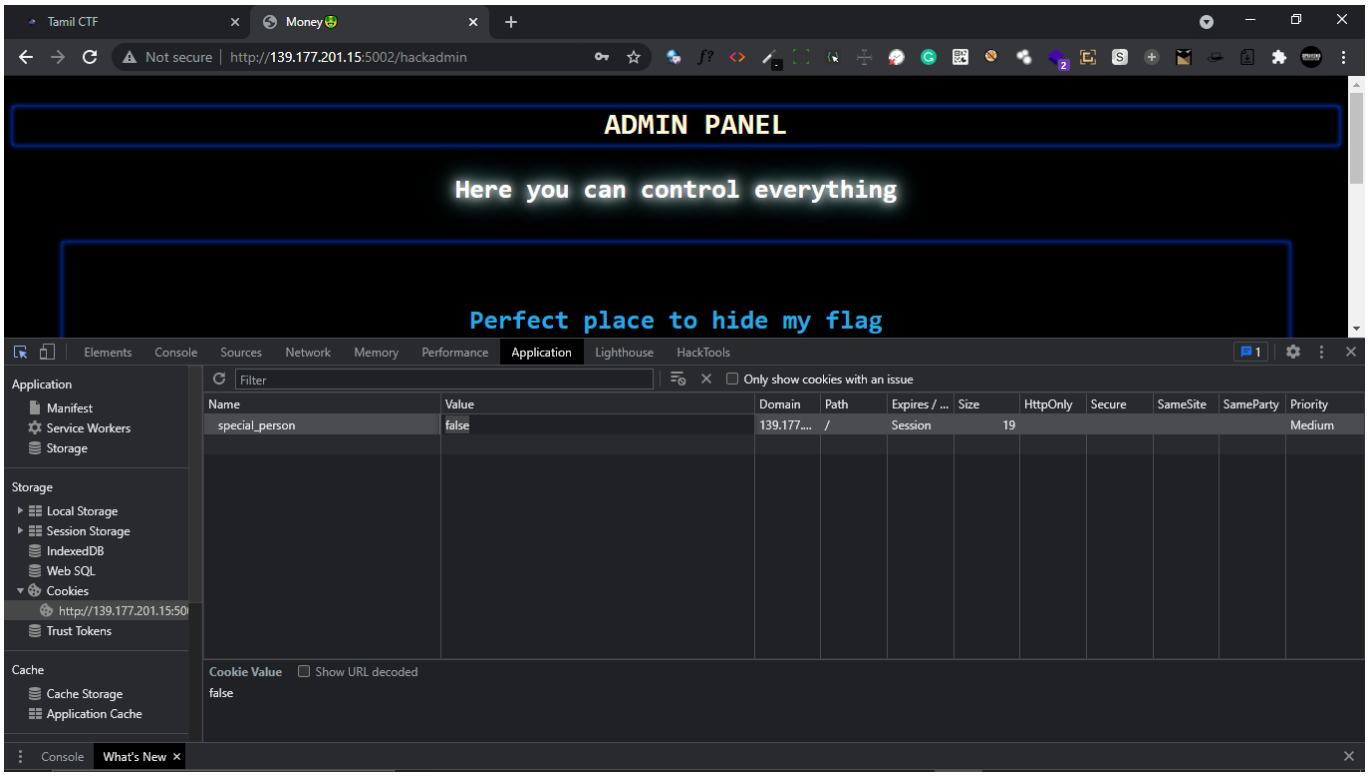
- Video of `ZERO TO HERO` course
- we got the path `/admin`
- and the creds

```
admin@tamilctf
imakepaidcringecourses
```

- Now let's go to `/admin` and try to login with these creds



- cool we logged in, but there's no flag
- it says only special persons can see this o.O
- let's check the cookies



- Here `special_person` is set to `false`

- let's change it to `true`
- cool we got the flag :)
