

Chall Name: Triple Dimple Easy Squish

Description: Its going to complex as usual, but if you know random bases very well it wouldn't be. Play with them

SOLUTION:-

This is simple DES3 Encryption

Feel free to use this script to solve!

```
from Crypto.Cipher import DES3
from binascii import *
from os import *
iv = unhexlify("a070ae09a4b7627c")
ciphertext =
unhexlify("59878c3b0190e5161228edb871d44514e761971ab39cd5bfc675050862ea2
a0611751867e99ab2d5643b5689e893bf7ca76bc10777030a6a")

key = unhexlify("6b696d696461796f6f6b696d697761616e616e6461796f6f")
cipher = DES3.new(key,DES3.MODE_OFB,iv)
plaintext = cipher.decrypt(ciphertext)
print(plaintext)
```
