(its not the flag but it has \_ so lets take note)

Lets move further

- As previous info ,we have to check his social medias and website..

- We KNOW THE WORD "cyberpj"

1. Hunt social media and find the difference

2.  : twitter

3. No facebook

4. in instagram  : nothing to be interesting

5. LinkedIn :

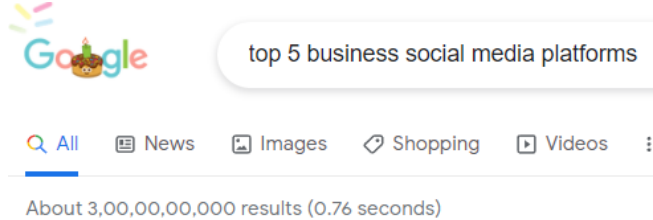

[#google\\_is\\_cool](#)

So we hunted social medias  
no we need his website too  
where?

my  SiTe 2..

From the Hint : top 5 business social media is enough

Let's dive into our list of the best social media platforms for business.

1. Facebook.com. ...
2. Instagram.com. ...
3. Twitter.com. ...
4. LinkedIn.com. ...
5. YouTube.com. ...

No facebook

#### Excecep fb

- 1.no info in instagram
- 2.no special info twitter
- 3.no info in youtube

4. but in linkedin you can see [Personal Website](#)

(linkedin is the only site which has website link)

As From the Gmail Avatar we need to get his" web site too" we got this now my Site 2..

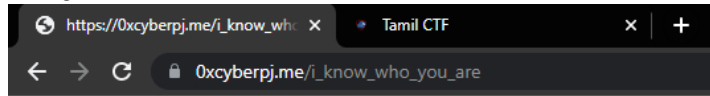

- got the website link from his linkedin !

At The previous enum (gravatar) we got the strings with underscore  
They said to relate lets relate !
